

YOUSSEF MOUATTA

Morocco, Chtouka Ait Baha, Biougra | +212648822150 | [LinkedIn](#) | [GitHub](#) | [WebSite](#)

EDUCATION

-Self Learning :

- Completed course on Offensive Security Certified Professional (OSCP) topics (YouTube)
- Studied Certified Ethical Hacker (CEH) curriculum (YouTube)
- Learned penetration testing principles through eLearnSecurity Junior Penetration Tester (eJPT) course materials (YouTube)
- Studied CompTIA Security+, Network+, Linux+, and A+ courses (YouTube)
- Explored MCSA (Windows Active Directory) topics via online tutorials
- Gained knowledge of CCNA (Cisco Certified Network Associate) concepts

-School learning :

- Third year at university: Ibn Zohr University, 2025 (Ongoing)
- Bachelor's degree in physics: Ibn Sina High School, 2022

Certifications and Achievements

- **IBM:** IT Fundamentals for Everyone (Ongoing)
- **365 Data Science:** SQL Certification
- **Google:** Cybersecurity Certificate
- **LinkedIn:** The Cybersecurity Threat Landscape
- **HP LIFE:**
 - IT for Business Success
 - Introduction to Cybersecurity Awareness
- **Cybrary:** Penetration Testing and Ethical Hacking Certification
- **365 Data Science:** Introduction to Python Course
- **TeraCourses:** Python Programming Language, Bash Scripting

Technical Skills

- ★ **Web Technologies:** HTML, CSS, JavaScript (familiar with web vulnerabilities and exploitation).
- ★ **Python:** Proficient in automating security assessments, custom scripting, and vulnerability analysis.
- ★ **SQL:** Skilled in querying databases for security analysis and pen-testing.
- ★ **Scripting:** Bash scripting and process automation.
- ★ **Version Control:** Git commands and GitHub repository management.

Experiences

➤ **Pentesting Tools:**

- Proficient with many pen-testing Tools, such as Nmap, Burp Suite, Wireshark, Hashcat, Hydra, Metasploit, etc.

➤ **Capture The Flag (CTF) Challenges:**

- Solved +60 challenges on Cyber Talents.
- Completed +100 rooms on TryHackMe (web security, cryptography, digital forensics, etc.).
- HackTheBox rooms and OverTheWire Bandit challenges.

➤ **Hands-on Projects:**

- Worked on OWASP Top 10 vulnerabilities.
- Explored vulnerable virtual machines like Mr. Robot, Metasploitable, and DVWA.
- Extensive public speaking and presentations.

Personal Projects

- ➔ **Networking Projects:** Designed and documented over 3 network setups available on GitHub.
- ➔ **Scripting Projects:** Created over 10 Python and shell scripting tools for cybersecurity tasks.

Languages

- **Arabic:** Native Speaker
- **English:** Fluent (Professional Proficiency)
- **French:** Intermediate Proficiency

Hobbies

Hacking, Chess, Kickboxing, Soccer
